ECOLOGICAL SCIENCE TECHNICAL NOTES - FOR IN SERVICE USE

TECHNICAL NOTES

**USDA, NATURAL RESOURCES CONSERVATION SERVICE
St. Paul, Minnesota**

September 28, 2017

Subject: ECS-AGRONOMY- Integrated Pest Management Technical Guide

Series No.: Agronomy Technical Note No. MN-09.

Effective Date: Upon Receipt.

Purpose: To distribute a technical guide for the Integrated Pest Management (595) Conservation Practice Standard. Minnesota Agronomy Technical Note No. 9 will adopt the National Agronomy Technical Note No. 9 titled Preventing or Mitigating Potential Negative Impacts of Pesticides on Pollinators Using Integrated Pest Management and Other Conservation Practices for use with the 595 Conservation Practice Standard.

Filing Instructions: Agronomy Technical Notes are maintained electronically in the Field Office Technical Guide (FOTG). Agronomy Technical Notes can be accessed directly from Section 1 of the FOTG.
